## From the Editor

Dear readers,

Ever since Journal of Advanced Engineering (JAE) published its first issue in July of 2006, eight volumes with 28 issues, 300 articles will have been released at the end of April, 2013. Among these brilliant papers, many of them are being cited and referenced as important materials around the world. In the past seven years, JAE was included in the leading dissertation databases such as National Central Library and Google scholars. Meanwhile, Airiti Library and HyRead Journal are also entrusted to publish E-Journals by JAE.

During 2012, 2,607 downloads of JAE were paid on demands from Airiti Library. Among them, 1 of which is for over 100 downloads, 3 for over 50 downloads, 4 for over 40 downloads, 4 for over 30 downloads, 16 for over 20 downloads, and 55 for over 10 downloads. That is, numerous downloads or citations prove JAE to be a growing, professional Publishing for both academic as well as industrial reference, which gives honor to what JAE has always devoted to.

In order to acknowledge all the authors for providing your outstanding articles in the previous years, top 10 downloads of the JAE papers are collected to show my sincere gratitude and respect to those who have been supporting JAE for so many years.
